Windpower

- Renewable Energy
- No CO₂ Pollution
- Efficient Power management necessary: no wind, no power

Power Generation

Power Generation Germany Norway Spain

Power Generation	Germany	Norway	Spain
Natural Gas	13%		32%
Windpower	6,3%		11%
Coal	43,3%		16%
Nuclear Power	23,3		20%
Water Power	3,1%	98,5%	7%
Biomass	3,6%		

offshore	onshore
continous and stronger wind compared to the onshore windpower stations	less wind less acceptance by population because of noise polution and „spoiling“ of the landscape
„the future“?
